

MANUFACTURING & INDUSTRIAL FLOORING

Safety and strength are essentials when it comes to flooring systems in manufacturing and industrial facilities. A waterproof, and heavy-duty floor will help set a clean, safe, and slip resistive environment for employees, while also offering a sleek and seamless look for the space. Allegheny Installations has the flooring solutions and experience you require for the unique needs of your plant.

WHY ALLEGHENY INSTSALLATIONS?

FAMILY OWNED

100+ YEARS IN BUSINESS

EXCELLENT CUSTOMER SERVICE

EXPERIENCED MECHANICS

Allegheny Installations is family owned and operated and has been installing manufacturing and industrial flooring solutions in the Pittsburgh area since 1925. We believe that floors are more than just a surface to walk on, rather they can set the tone and feel of a building and are a reflection of the owner. All of our floors are custom and designed to create a one-of-a-kind, high-end look.
